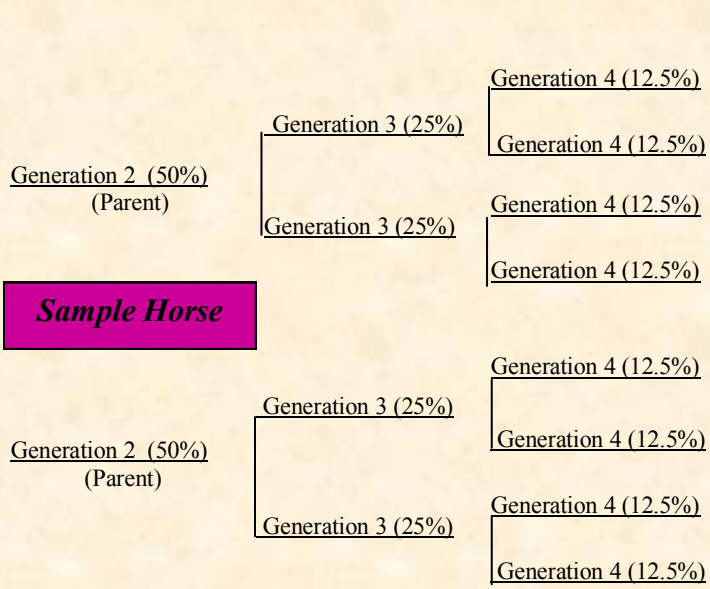
Got Foundation Bloodlines?



Helpful Hints

- **Research bloodlines** before applying for registry. Many groups have web pages with percentages of popular sires & dams listed to assist you.
- **Purchase a registered** foundation horse or foal.
- **Find a Trainer showing** or who has shown with a foundation quarter horse group. The trainer may have horses available to campaign or clients with foundation horses for sale.
- **Talk with a Breeder.** Several breeders specifically research bloodlines and have a good sense about which bloodlines may qualify for registry.

Following the sample out to the 6th generation, we will have 32 horses each contributing 3.125% to our sample horse percentage. The first 27,000 horses listed by the AQHA for registry are recognized as Foundation blood lines. Thoroughbred (TB) blood listed in generations newer than the original 27,000 AQHA horses contributes to TB percentage. 7th and 8th generations are researched if any TB blood is in question. Horses expressing greater than 25% TB blood or horses lacking the original Foundation blood lines are not considered for registry.

Our organization, the **Wisconsin Foundation Quarter Horse Association** is dedicated to the promotion of the Foundation Quarter Horse. Therefore ***we accept Foundation Quarter Horses registered with nationally recognized Foundation Quarter Horse Groups.***

Additionally

- 75% of the pedigree of the horse to be registered must trace back to the original 27,000 horses registered by AQHA. *(Other national groups require this % or higher for registry.)*
- Thoroughbred horses may not be closer than the 4th generation of the registered horse.
- Any *Impressive* bred horse meeting other qualifications must be (N/N) for HYPP.
